## Tideland Signal College

Tideland Signal Corporation continues to conduct a variety of training classes on all the products that they manufacture. Over the years hundreds of students have received extensive training; being the end users, technicians, engineers, agents along with various government departments such as the United States Coast Guard and Bureau of Ocean Energy Management, Regulation, and Enforcement.

Tideland is now providing training courses at a college level. Just this past month Tideland instructed students at Texas A & M Maritime Academy. The course covered USCG Regulations, IALA Recommendations, LED technology, effects of background lighting, along with identifying Maritime Buoyage Systems.

Texas A & M Maritime Academy Students this past month participating in Tideland Signal training class.

The training sessions are usually held at Tideland's Headquarters in Houston, TX or their satellite office in Lafayette, LA. They have also conducted training at off site locations in North and South America, as well as Europe and Asia.

Founded in 1954, Tideland Signal Corporation is committed to meeting and exceeding the requirements for marine aids to navigation to the maritime industry.
