

L-120

Solar Powered LED Marine Lights

TIDELAND SIGNAL CORPORATION

A compact light package, L-120 provides for reliable service and low maintenance, ideal for small marker buoys, docks, marinas and aquaculture sites. These lights are available in yellow, red, green and white IALA colours.

FEATURES:

- **LIGHT AND POWER SOURCE** – LED technology coupled with self-contained solar and battery power. L-120 marine lights are available with either solar or primary battery power.
- **CONSTRUCTION** – Sturdy polycarbonate and stainless steel along with an integral precision-machined O-ring seal ensure a watertight enclosure with superior shock and vibration resistance.
- **PROGRAMMING MODES** – L-120 offers 256 flash code characters with optional programmer or it can be factory preprogrammed to any of the 16 most commonly used flash code patterns.
- **MAINTENANCE** – Quick release lens clamps enable on-station battery replacement and maintenance a simple task, using only an Allen wrench.

L-120 Solar Powered Marine Lights are colour coded on the top and base to easily identify LED colour when unlit.
